Guide to
Hunting & Fishing
Lodges

Imagine a place where nature is in its most natural state, where lakes teem with fish and the abundant scenery will leave you breathless. Picture for yourself crystal-clear water or the lone call of the majestic loon, while savouring the soft splash made as your lure breaks the tranquil silence surrounding you. This utopia is none other than Ontario – an accessible paradise that you can call your very own.

Ontario boasts more than 400,000 lakes, rivers and streams – enough water to quench the thirst of even the most ardent angler. From fly-rodding for trout to waging war with the mighty muskie, the possibilities for world-class fishing are endless. If your style of fishing is to wade a pristine stream or to troll the largest of lakes, we have the perfect spot to lure you in. Be the first to cast a line to fish that have yet to see an artificial bait. Re-discover your inner-child while staring at the massive pine trees that line the shore. Revel in the excitement and exhilaration as you lift the net under yet another formidable adversary, all the time wondering why you never made this pilgrimage before. Dreams can come true, and Ontario is just what you have been wishing for.

Ontario boasts the world's largest number of lakeside resorts and lodges; one of which will be sure to suit your needs and budget. Take a short drive from the bustling city to a hidden retreat, or board a plane for a fly-in getaway, either way you can be assured of professional service and a "shore lunch" to remember. Once summer makes way for winter, a new realm of fishing is at your doorstep. Take part in the ritual of ice fishing, and discover the incredible way this activity can warm your soul on even the most cold of days. Whether you prefer to brave the elements or warm up in an outfitters hut, the results through the ice will amaze and delight you.

Fishing, however, is not the only resource we have to offer. Come camp in one of hundreds of provincial parks that are at your disposal. Hike the beaten path or get lost in your own trailblazing – the wilderness is endless. Canoe the route Samuel de Champlain once did, and make history on your own time. Bike, blade or walk the thousands of thoroughfares, and let the beaming sun be your timepiece for the days adventure. Relax by yourself or incorporate a family vacation into the mix.

Marshmallows by the fire, ghost stories in the tent,

and the look of astonishment as a child hooks their first fish are time-honoured traditions that you owe to yourself to experience. The hardest part will be deciding what to do. You name it. Ontario is brimming with possibilities.

Give Ontario a try this year and discover the beauty and adventure that this province holds. Its unparalleled landscape and activities will have you returning year after year – with memories that will stay with you forever.

Ontario Essentials Fishing Licences and Regulations

All non-residents of Canada must possess a fishing licence to legally fish in Ontario waters. Nonresidents under 18 may angle without a licence while in the company of a licenced family member. Non-residents are also able to buy a "Conservation Licence" which promotes conservation principles. These licences cost significantly less than "Regular" licences and involve lower catch and possession limits. For information on fishing seasons, limits and other regulations, please consult the Ontario Recreational Fishing Regulations Summary, which is available at most licence issuers or through the Ministry of Natural Resources.

Please remember to carry your licence at all times. The law requires you to show it if a conservation officer asks to see it.

Ontario Weather

Ontario is blessed with a tremendous variance of weather conditions. Our summer is quite warm with highs around 28-30 degrees Celsius (82 degrees Fahrenheit) in the south part of the province and 22-24 degrees Celsius (74 degrees Fahrenheit) in the more northern regions. Winter can be quite cold at times, and it is best to bring lots of warm clothing in order to protect you from the conditions you may face. Spring and fall will call for medium to heavy-weight clothing to cover most conditions.

Crown Land Camping

To improve the quality of experience for campers by ensuring that crowding and over-use of sites is reduced, there are some regulations about Crown or public land that you should know about. Non-residents of Canada, 18 years of age and older, are required to obtain a permit to camp on Crown Lands. This applies to the area north of the French and Mattawa rivers, from the northwestern to the northeastern borders of Ontario. These permits are available from most angling licence issuers and from the Ministry of Natural Resources District Offices.

Ontario's Freshwater Fish

Ontario has some many angling opportunities to offer and so many species to target. Check out the most popular game fish we offer and the Ontario records that they hold.

Walleye - Ontario is walleye country. You can find great action for these tasty, golden fish in a variety of settings, from the Great Lakes to shallow and fertile cottage-country reservoirs, to deep, clear rivers and lakes on the Canadian Shield. Ontario Record – 22.25 lbs.

Largemouth and Smallmouth Bass - Both species of bass are plentiful throughout Ontario and are high on most anglers sought-after list. From the hard-fought pulls of the smallmouth to the weedy lair of the largemouth, you are sure to fall in love with these beautiful fish. Ontario Record Largemouth – 10.43 lbs. Ontario Record Smallmouth – 9.84 lbs.

Northern Pike - Ontario offers the most diverse northern pike fishing on the continent, and hooking into a 30-pound fish can be accomplished. Streamlined bodies and razor-sharp teeth make the pike a favourable target. Ontario Record – 42.12 lbs.

Muskie - Ontario muskie anglers generally face two choices: chase rarer trophies that sometimes exceed 40 pounds or concentrate on quantities of smaller fish, a relative term when you consider that the average size is about 10 pounds. A world-record exceeding 70 pounds is almost certainly lurking somewhere in the province for those who would take up the challenge of the hunt. Ontario Record – 65 lbs.

Trout and Salmon - Trout and salmon are a highly sought after species not only for their fighting qualities, but also for their highly-prized taste. From lines screaming salmon to leaping rainbows, deciding on which fish to pursue will be your hardest decision. Ontario Record – Chinook Salmon – 45.38 lbs. Rainbow Trout – 29.12 lbs. Brown Trout – 34.38 lbs.

Lake Trout – 63.12 lbs. Brook Trout – 14.5 lbs.

Panfish - Ontario has a long list of small fry that offer dependable action for the whole family. Crappie and yellow perch draw the biggest followings and are also the biggest. Besides providing hours of fun for the angler, they also offer a delightful meal at the end of the day. Ontario Record – Black Crappie – 3.78 lbs. Yellow Perch – 2.25 lbs.

Even people who live in Ontario can have trouble appreciating the sheer size of this province. Ontario is Canada's second largest province, covering more than one million square kilometres (415,000 square miles) - an area larger than France and Spain combined. More than 11 million people live in Ontario. If you look at a map of Ontario you will notice that the province is bounded by Quebec on the east, Manitoba on the west, Hudson Bay and James Bay on the north, and the St. Lawrence River and the Great Lakes on the south. Ontario's quarter million lakes and countless rivers and streams hold **about one-third of the world's fresh water**. The rivers of southern Ontario flow into the Atlantic Ocean by way of the Great Lakes and the St. Lawrence River system. Most northern Ontario rivers flow into James Bay and Hudson Bay. Ontario's quarter million lakes and countless rivers and streams played a central role in the province's history and development. For Aboriginal peoples and the early European settlers, the lakes and rivers were a means of transportation and a source for food.

Ontario's varied climate and geography, vast wilderness areas, and countless lakes, rivers and wetlands, support habitat for more than 3,100 species of vascular plants, 158 species of fish, 80 species of amphibians and reptiles, 400 species of birds, and 85 species of mammals. In Ontario's southernmost regions, you will find prickly pear cactus and sassafras trees, while polar bears roam our northern tundra. Fish: Familiar warm water species include bluegill, channel catfish, yellow perch, and largemouth and smallmouth bass. Our cool water habitats feature muskellunge, northern pike and walleye. Our cold waters are home to lake trout, lake sturgeon, chinook salmon, lake whitefish and brook trout.

Phone: (705)624-3536 Open May thru October

Set in the wilderness on a remote island secluded away from it all, this is the spot to enjoy the Canadian Northwoods at its fullest. Enjoy great fishing and hunting, or just rest and relax. Duncan Lake is 17 miles long and is part of the headwaters of the Montreal River. It has over 200 miles of shoreline and more than 50 islands. The many bays, shoals and grass beds, plus an abundance of food, all help make Duncan one of the best Walleye and Northern Pike lakes in Ontario. Duncan Lake is fabulous hunting territory and we can easily reach more than 50 square miles of it from camp. We have a great Black Bear population and the hunting season runs from August 15th to October 15th. Hunting is mainly over baited stands, watched morning and evening. The bears will be coming into your baited bear stand before you arrive. For the Moose hunter, hunting along old trails, swamps, deep cover or by canoe in our many outer lakes can be very rewarding. Duncan Lake cabins all have a beautiful view of the lake. Each cabin features a screened porch, refrigerator, propane cooking stove, oil heat, and are furnished with dishes and utensils for housekeeping. We generate power for our lights and have a deep freeze to care for your fish.

Sunbeam Bungalows is located in the small, picturesque hamlet of Callander, Ontario. It offers a small town, rustic lifestyle within 10 miles of shopping and cultural center. The area is a photographer's dream with an abundance of birds, trees, rocks and lakes to capture on film or to paint or sketch. And wait until you see our magnificent sunsets. Our resort is nestled under the pines, across the road, from a long white sandy beach. You'll love our beautiful marina with it's own private 2,500 sq. ft. deck with lounge chairs and patio tables. The shallow water depth provides for safe, carefree swimming for the little folk and the rest of the family. Lake Nipissing is world-renowned for it's fishing. There are excellent stocks of pickerel (walleye), great northern pike and muskie, plus smallmouth bass. You'll also find largemouth and rockbass, yellow perch, and a

number of other species. Fish in sheltered Callander Bay within sight of our resort or venture out as far as you wish. Our well-maintained 18-foot fiberglass boats, equipped with fishfinders, and new 25 hp electric start motors will take you to your favorite fishing hole quickly. We offer a choice of 1, 2, or 3 bedroom cottages which have combined kitchen-living rooms and 3- or 4-piece baths. The cottages are equipped with electric refrigerators and four-burner stoves with ovens, cutlery, dishes, cooking utensils, pots and pans, blankets, pillows, linen, towels and tea towels. They are made up and ready for occupancy. Each cottage has a picnic table, barbeque and private deck for your enjoyment. Just ask for your free boat and motor when you make your reservation and we'll do the rest. Our equipment is all late model and well-maintained. If you bring your own boat(s) we'll provide free launching and docking for up to two boats, and include free use of all of our facilities.

North of Cochrane, amid a sprawling and unspoiled wilderness, lies incredible Kesagami Lake - Ontario's premier trophy northern pike lake. Shallow (averaging 7 feet), stained and rimmed with weedy bays, Kesagami is home to an inestimable number of pike over 40 inches (20 lb) and world-class fish measuring 50 inches (30 lb). Conservative size / possession regulations and a strong live-release awards program are in place, maintaining an exciting trophy fishery for the future. Additionally, Kesagami Lake offers exceptional walleye fishing where rocky shoals, islands and points always hold numbers of fish in the 1 to 4-pound class. We currently run 20 outpost camps. All of our camps except Nettogami feature the only camp on each of the lakes. (Nettogami features three camps ALL exclusively operated by us. Construction is varied from rustic log to modern plywood to new "cottage-style" siding.

We truly have some of the most incredible fly in wilderness outpost adventures in Ontario, Canada. If you are looking for a Canadian fly-in trip with excellent pike, walleye and brook trout fishing then you need to look no further than our 20 outpost camps and cabins. We have virgin-quality fishing mainly due to our very progressive catch and release fishing policies that keep the fish in the lake and the fact that we limit the bookings of our outposts to only six weeks per year even though our season runs for 14 weeks. The limited fishing pressure means incredible pike, walleye and brook trout fishing. Our fly in outpost cabins have excellent equipment and we keep cleaned, well stocked outpost camps.

Step back in time to a place where the air is crystal clean, wildlife is abundant and the fishing is spectacular. You have found Chapleau Lodge. The lodge is located on spring-fed Borden Lake in Northern Ontario, which produces some of the best fishing in Canada for Walleye, Northern Pike, Smallmouth Bass, Whitefish, Lake Trout and Brook Trout. Our location also produces many opportunities for photographing wildlife such as Moose, Black Bear, Loons, Bald Eagles and much more. Our accommodations include American Plan and Housekeeping cabins. Our dining room serves delicious cuisine that you won't find at other Northern lodges. Check out some of our menus! We have activities for the whole family such as canoeing and swimming in our heated pool. Borden Lake is a spring-fed lake over 12 miles long and up to 200 feet deep. There is 78 miles of shoreline with 87 islands. The base of the lake is Canadian Shield Rock, which supplies the water with the right combination of minerals such as Calcium and Mica to sustain incredible populations of fish. Lakes with low Calcium produce less fish. Being spring-fed has also protected the lake from global pollution.

Chapleau Lodge is the only lodge on the lake, which has given us the ability to have some environmental control as far as a catch & release attitude, which has helped the lake sustain its incredible fish population. Borden Lake is also part of the Arctic Watershed, which

makes it among the highest producing freshwater lakes in the World.

Prairie Bee Camps is a boat-in camp, with an outpost cabin at the west arm of the lake, and the main camp on the east end. The lake is about 10 miles (16 km.) long, and averages about 20 feet deep, with some places as deep as 80 feet. Prairie Bee has a diversified fishery. Walleye, pike, smallmouth bass and white fish abound. We are also bordered by Windermere Lake, which has the same kinds of fish. This is a five minute boat ride and a two minute portage from our main camp. Between our two lakes, we have hundreds of miles of shorelines and rocky shoals to fish. There are other, smaller lakes that are excellent for pike quite close to the main camp. Each cabin is fully equipped with kitchen utensils and dishes. There are pillows and extra blankets in the bedrooms for added comfort. You need to bring your own groceries, sleeping bag and/or blankets, pillow case, personal towels and face cloths, and hand soap, a whistle and watertight flashlight, fishing tackle, personal floatation device (not a seat cushion) for the boat. Toilet paper and garbage bags are provided. The beach by the camp is sandy, perfect for swimming, and there are several other beaches nearby for more privacy.

Cozy Camp is just that! A small, clean & cozy family owned & operated "hot spot" to fish on the famous English River. We can help you make your fishing vacation as relaxed or as adventurous as you want to get! Located just 20 miles north of Ignace, Cozy Camp is the only resort on 32 miles of gently flowing waterways interconnecting many lakes with the English River. You can enjoy the fresh clean air & the pristine beauty of the river from the deck of your fully equipped modern housekeeping cabin. It is quite easy to catch a tasty walleye dinner only minutes from camp. Aggressive northern pike will often lock on to your walleye while reeling in, giving you an

opportunity to net both! Running into a school of quality sized small mouth bass will keep both young & old anglers busy for hours! Whether you rent one of our cozy cabins or an R.V. site, our customers satisfaction is our first priority! This truly is "North of the Tension Zone"!

We have many uninhabited lakes surrounding our camp and the fishing is just plain great for Walleye, Northern and Trout. If you are looking for something different and a new adventure to fish several lakes on your holiday, this just could be what you have been looking for. All lakes are feeder lakes from Lake Nipigon with two lakes, Upper Roslyn and Georgia, being fish sanctuaries and the water is connected to the feeder system. We can fish the entrance of both lakes. All of the lakes connect and the water runs out the Sturgeon River; we are situated on the Sturgeon River where it starts at Gathering Lake. Gathering Lake has excellent fishing and constantly produces trophy Walleye. We have access to it from our

camp just a few hundred yards up river by boat. For More Information On Wolf, Grouse & Black Bear Hunting Please Visit Our Hunting Site - www.theblackbearexpert.com

Fishing is what first attracts most of our guests. Red Lake is renowned for some of the best fishing North-western Ontario has to offer. The Lake is one of Nature's wonders, consisting of deep cold-water bays connected by shallow narrows and fringed with shallow warm-water bays. Islands and an irregular shoreline plus a productive clay bottom provide ideal conditions for a variety of gamefish. Northern pike up to 30 pounds skulk in these waters, ready to slash in on nearly anything that moves. Walleyes grow to eye-popping sizes in Red Lake. Eight-and-nine pounders are not uncommon and we've caught walleyes up to 12 pounds. Red Lake is famous for its lunker lake trout. Nothing has the awesome pulling power of lake trout. We have caught trout up to 43 pounds but even a 10-pounder will tax your rod and reel, not to mention your arm.

Lac Seul's Evergreen Lodge invites you to fish the open waters, the quiet bays, and the beautiful island shores of Lac Seul. Enjoy the taste of freshly caught walleye, cooked on a open fire at one of our famous shore lunches. Lac Seul is one of Ontario's finest fishing lakes. Home to the Walleye, and oh do they grow big here, the Northern Pike, Perch and even the fighting Musky. This expansive, beautiful lake covers over 400,000 acres of water with thousands of miles of shoreline. But you won't have to feel lost on this lake, because of its many quiet bays, inlets and islands. You can always find a great fishing spot to call your own. Lac Seul is known to be a consistent producer for the angler. Limits of Walleye can be had whatever the season or day's weather. Musky (up to the 40 lb. range) have been caught, those going for Northern will find plenty of action. We hunt in hundreds of square miles of pristine Canadian wilds where Bear, Moose and Grouse flourish. Come north to real hunting success. The lodge owner is an active and skilled hunter who takes a personal interest in your hunt. He knows the land and the best areas for each hunt, whether you are hunting Bear, Moose or Grouse.
